MEMBERSHIP DIRECTORY

National Conference of Social Work

The strength of the National Conference of Social Work is in its membership. The members of the Conference are listed in this biennial Directory. These social work leaders, lay and professional, and the social welfare agencies are representative of the United States and some foreign lands. They represent paid and volunteer staffs, outstanding leaders and workers. They represent sectarian social work and the various types of services offered in social welfare. In brief, this combination of social workers, laymen and organizations, have made the National Conference of Social Work a unique organization in social welfare. It has made it one of the strongest educational and morale forces for the improvement of practice in this field.

These social work leaders and social welfare agencies participating voluntarily as individuals and in an unofficial capacity—as committee members, officers and speakers—have identified the basic social and economical problems. They have suggested the newer worthwhile techniques and methods in meeting these problems. They have provided a chronological and cumulative record of developments and trends in the field.

The Conference publishes this Directory because the members have expressed a need for it. The Directory is the largest listing of social workers available at the present time. The complexity of social welfare and the mobility of social workers should make this Directory a useful tool. It should be useful for locating individuals, in planning and in organizing social workers for our common purposes.

The Conference and social work in general owe a debt of gratitude to those loyal members who have supported its work over the years. These members have demonstrated the need for the Conference. This need can be met only by the continued participation and support of its members and the social welfare community.

PRICE: NON-MEMBERS \$2.00 — MEMBERS: ONE COPY FREE, ADDITIONAL COPIES \$1.00

THE National Conference of Social Work appreciates the support and loyalty of each of its members. It now expresses its special gratitude to the 693 members who for twenty years or more have continuously maintained not only their interest but their support through membership.
